

LOWER MINNESOTA RIVER WATERSHED DISTRICT

Executive Summary for Action

Lower Minnesota River Watershed District Board of Managers Meeting

Wednesday, August 15, 2018

Agenda Item

Item 7. A. - 10831 Quebec Avenue South, Bloomington - Cost Share Application

Prepared By

Linda Loomis, Administrator

Summary

This application was submitted to the LMRWD in May 2018. Managers tabled the application and invited Mr. Larson, the applicant, to a Board meeting to speak to them about the application. Mr. Larson appeared before the Board at the July meeting. After the meeting Mr. Larson was given contact information at the city of Bloomington where he might go to get technical assistance for his project. I also provided him with contact information for Metro Blooms and offered him a suggestion of what he might try to better achieve water quality treatment (in addition to the rain barrels) and also provide him with privacy in the back yard of his home.
